### Emotion is in the purity of shapes

An artisanal worked monolith becomes a sculptural desk with surprising aesthetics in which table top and structure are integrated into a powerful furnishing solution that enhances the purity of the metal and the sensuality of its curves.

The desk can be used anywhere in the room, giving it dynamic and vivid reflections of light. Each piece is numbered and crafted in steel, and is made to order.

### Features

#### Materials:

- » Stainless steel
- » Carbon steel

#### Finishes:

- » Mirror polished
- » Satin
- » Painted

#### Location type:

- » Indoor application
